Coming Soon.... Calcium Rich Foods Challenge!!

The school nurse and the food service staff are working together on a program called "**Bucks for Bones**". The goal of the program is to learn about and eat more calcium rich foods at school. Calcium is in lots of foods - vegetables, grains, fruits and milk products.

Students will compete by classrooms to earn "Bone Bucks" to buy bones to build their classroom skeleton. The first class to complete their skeleton will be the keepers of Mr. Bones (Mrs. McDonough's skeleton model) for one month.

The program will begin after February vacation and more information will be coming home at that time.
